A PIECE FOR HOME

Built around the story, materials and little details that matter.

KEEPSAKE DOME

A dome using an ethically sourced skull from available Pretty Dead Decor stock. Final price depends on the skull and materials available.

ANIMAL MEMORIAL BOX

R1 899 - R2 099

A custom memorial using your companion's remains. Final price depends on the animal, condition of the remains and preparation required.

FLOWERS ARE WELCOME, TOO.

Fresh flowers - including funeral flowers - can be incorporated into a memorial piece. Please get them to me as soon as possible so I can dry and preserve them properly.

LITTLE PIECES OF THE LOVE THAT STAYS

Tender, unusual memorials made one at a time.

PET MEMORIAL FRAMES

Example: Chilean Rose Tarantula memorial

For smaller companions, a framed memorial can become a quiet little world of its own - preserving the details that made them so special. Quoted individually.

A HEART KEPT CLOSE

If your companion has passed very recently, it may be possible to gently preserve (mummify) the heart and incorporate it into a dome or framed keepsake - a tangible little piece of the love that stays. Availability depends on timing and condition. Quoted individually.

SENDING SENTIMENTAL MATERIALS

Ashes, teeth, fur, hair, flowers and other small mementos can be included in selected pieces. Only a small amount is needed. Any unused sentimental material will be carefully returned to you.

Fresh flowers should be sent as soon as possible so they can be dried properly. For recently deceased animals, please contact me before sending remains so we can talk through what is possible and how best to prepare them.
